

Dr. K. A. Irshad

Scientist (IISc/ICTP)

High pressure diffraction beamline: Xpress

Elettra Sincrotrone Trieste S.C.p.A.

S.S. 14 Km 163,5 in Area Science Park 34149 Basovizza, Trieste, Italy

Personal Details

Date of Birth : 25th June, 1989

Sex : Male

Marital status : Married

Nationality : Indian

Languages : English, Hindi, Malayalam, Tamil

Address for communication : High pressure diffraction beamline: Xpress
Elettra Sincrotrone Trieste S.C.p.A, S.S. 14 Km 163,5
in Area Science Park 34149 Basovizza, Trieste, Italy

Email : irshad.kariyattuparamb@elettra.eu; irshadka17@gmail.com

Phone : 040-375-8051 (office)/8434 (Xpress) ; +39-3882527689 (Mob)

Education

- | | |
|------|---|
| 2019 | Ph.D, Physical sciences
Homi Bhabha National Institute, Mumbai, India.
July 2013-August 2018 |
| 2012 | M. Sc, Physics (CGPA -7.79)
Central University of Kerala, Kasaragod, Kerala, India
Jul 2010 – Sep 2012 |
| 2010 | B. Sc, Physics (75.1 %)
University of Calicut, Calicut, Kerala, India
Jun 2007 – Mar 2010 |
| 2006 | Intermediate (81.33 %)
Puliyaparamb Higher Secondary School, Kodunthirapully, Palakkad, Kerala
May 2005 – Mar 2007 |

Academic/Research Positions

- | | |
|-----------|---|
| 2021- | Beamline Scientist(IISc/ICTP), Elettra Sinchrotron Trieste, Italy |
| 2018-2021 | Post Doctoral Research Associate, IGCAR Kalpakkam |
| 2015-2018 | Senior research fellow, IGCAR Kalpakkam |
| 2013-2015 | Junior research fellow, IGCAR Kalpakkam |
| 2012-2013 | Higher secondray school teacher, Puliya Parambu HSS,Palakkad, Kerala, India |

Research Interests

1. Structural properties of materials at extreme conditions of pressure and temperature.
2. Development of novel experimental techniques for DAC based X-ray diffraction studies.
3. *In-situ* high pressure - high temperature studies on rare earth sesquioxides.
4. Investigating the structure property correlations in rare earth and actinide compounds.
5. High pressure synthesis of potential super hard materials.

Research Experience

Beamline Scientist (Sept 2021-present) Carrying out high pressure high/low temperature X-ray diffraction studies on various materials, developing novel experimental techniques for DAC based studies. I have been the local contact for supporting users for synchrotron experiments involving extreme condition X-ray diffraction measurements. In addition, my responsibilities include preparing and documenting the monthly and yearly reports of the beamline, technical evaluation of the proposal and periodic maintenance of the facilities available at the beamline.

Research Associate (Sept 2018-Sept 2021) Investigating the high pressure-high temperature behaviour of radio active nuclei loaded zeolites for applications related to the nuclear waste immobilization. I was also involved in exploring structure property correlations in metastable phase of HfO_2 at high pressure and high temperatures.

Senior/Junior Research Fellow (Jul 2013–Aug 2018) During this period I have carried out research work on my doctoral thesis under the title “Study of crystal structure of functional rare earth sesquioxides at high pressures”. I acquired the skills to operate the diamond anvil cell which is a tool par excellence for generating megabar pressures in the laboratory. I was assigned to look into the phase transition behaviour of rare earth sesquioxides. To accomplish my goals, I had been introduced to laboratory and synchrotron based X-ray diffraction, Raman spectroscopy and scanning electron microscopy experimental techniques and their analysis methods. I was also handling the programmes GSAS, LHPM-Rietica, CMPR, Fit2D, WIRE, Image J, PCW 2.3, VESTA etc., for analysing the data.

M. Sc Dissertation (June 2010–July 2012) During this period, I have completed my master’s degree in physics. As part of the M. Sc dissertation, six month project work titled “Study of fission fragment mass distribution for $^{30}\text{Si} + ^{180}\text{Hf}$ reactions at energies 128 MeV, 137 MeV And 144 MeV” was carried out. In collaboration with the Inter University Accelerator Centre, New Delhi, India, I have studied the fusion fission reaction kinetics and the fission fragment mass distributions when these nuclei collide to form a super heavy nucleus.

Scientific Skills

1. Expertise in handling Mao-Bell type, Symmetric and gas driven membrane diamond anvil cells (DAC) for the generation of high pressures.
2. Hands on experience in *insitu* low temperature high pressure diffraction system
3. Expertise in *insitu* high temperature high pressure diffraction measurements.
4. Proficiency in Gas loading system for High pressure experiments.
5. Proficiency in synchrotron based high pressure X-ray diffraction experiments

6. Beamline management and user assistance
7. Rietveld structure refinement of X-ray diffraction data
8. Material characterization using powder X-ray diffraction, Raman spectroscopy and Scanning Electron Microscopic (SEM) techniques
9. Developed a novel X-ray slit for Mao-Bell type DAC, useful in laboratory based high pressure X-ray diffraction experiments.
10. **Packages** : GSAS, LHPM Rietica, CMPR, Fit2D, EOSfit, Image J, PCW 2.3, VESTA, etc.,

Research Publications

Publications in the peer-reviewed international journals:

1. Crystal structural evolution of Ru_3Sn_7 under pressure and its implication on possible electronic changes. **K. A. Irshad***, A. Pazhedath, H. Jena and B. Joseph, **J. Phys.: Condens. Matter** 38 (2026), 015404.
doi: <https://doi.org/10.1088/1361-648X/ae2e6c>
2. Anomalous Pressure Dependence of the Charge Density Wave and Fermi Surface Reconstruction in BaFe_2Al_9 . M. Abdel-Hafiez, M. Sundaramoorthy, N. M. Jasim, **K. A. Irshad**, C. N. Kuo, C. S. Lue, F. L. Carstens, A. Bertrand, M. Mito, R. Klingeler, V. Borisov, A. Delin, B. Joseph, O. Eriksson, S. Arumugam and G. Lingannan, **Physical Review Letters** 135 (23), 236502 (2025).
doi: <http://dx.doi.org/10.1103/dxzf-fx8k>
3. An experimental investigation unravelling the aberrant thermo-mechanical behaviour of Re-loaded zeolite Na-A. A. Maharana, A. Senapati, **K. A. Irshad**, B. Joseph and H. Jena, **Materials Chemistry Frontiers** 9 (21), 3161-3173 (2025).
doi: <http://dx.doi.org/10.1039/D5QM00395D>
4. Low-temperature spin-phonon coupling and high-pressure phase transitions in the honeycomb magnetoelectric $\text{Co}_4\text{Ta}_2\text{O}_9$. R. Jana, R. Trivedi, B. Joseph, A. B. Garg, **K. A. Irshad**, M. Mukadam, B. Chakraborty and R. Rao, **Physical Review B** 112 (7), 075139 (2025).
doi: <http://dx.doi.org/10.1103/8yqh-w6lq>
5. Evolution of topological phases of TaSe_3 under hydrostatic pressure. A. G. Francis, J. Sunil, A. Joseph, A. Das, B. Joseph, **K. A. Irshad**, K. Biswas, S. K. Pati and C. Narayana, **Physical Review B** 112 (8), 085115 (2025).
doi: <http://dx.doi.org/10.1103/ryhv-stzs>
6. Temperature-Dependent Phase Evolution of LaVO_4 via Solid-State Synthesis Route. A. K. Sivadasan, G. Aravindkrishna, V. Kalarikkal Narayanan, P. S. Kadhane, **K. A. Irshad**, L. Tony, I. P. Selvam and S. N. Potty, **Phys. Status Solidi B** 262 (11), 2500097 (2025).
doi: <https://doi.org/10.1002/pssb.202500097>
7. Pressure effects on the surface enhanced Raman spectroscopy of a ZIF-67/R6G system. K. Kamali, **K. A. Irshad**, M. Sundaramoorthy, B. Joseph and D. P. Das, **Nanoscale** 17 (24), 14874-14886 (2025).
doi: <http://dx.doi.org/10.1039/D5NR00831J>
8. Charge conduction and relaxation in $\text{Ca}_{1-x}\text{Dy}_x\text{BaFe}_4\text{O}_7$. M. Islam, S. K. Adhikari, S. Adhikari, S. Chatterjee, S. Goswami, D. De, **K. A. Irshad**, B. Joseph, W. Caliebe and A. Karmakar, **Physical Review B** 111 (5), 054110 (2025).
doi: <http://dx.doi.org/10.1103/PhysRevB.111.054110>

9. Structural changes in honeycomb layers of $\text{Mn}_3\text{NiTa}_2\text{O}_9$ under pressures up to 14 GPa using in situ synchrotron x-ray diffraction. H. Singh, M. S. Seehra, **K. A. Irshad**, B. Joseph, W. Prellier and S. Thota, **AIP Advances** 14 (12) (2024).
doi: <http://dx.doi.org/10.1063/5.0241231>
10. Process—structure correlations in co-precipitation synthesized lanthanum zirconates. S. S. Bhat, **K. A. Irshad**, M. Almeida, M. Sivakumar, P. Vairavel, S. C. Gurumurthy and R. K G, **Materials Research Express** 11 (9), 095002 (2024).
doi: <http://dx.doi.org/10.1088/2053-1591/ad719f>
11. Iso-structural phase transition in pyrochlore iridates $(\text{Sm}_{1-x}\text{Bi}_x)_2\text{Ir}_2\text{O}_7$ ($x = 0, 0.02$, and 0.10): high-pressure Raman and x-ray diffraction studies. M. Rosalin, **K. A. Irshad**, B. Joseph, P. Telang, S. Singh, D. V. S Muthu and A. K. Sood, **Journal of Physics: Condensed Matter** 36 (45), 455401 (2024).
doi: <http://dx.doi.org/10.1088/1361-648X/ad69ed>
12. Hard X-ray Diffraction Beamlines at Elettra for Material Science: The Present and the Future. B. Joseph, G. Bais, L. Gigli, F. Alabarse, **K. Irshad**, L. Barba, A. Cassetta, P. K. Mondal, H. Poswal and D. Sarma, **Acta Cryst.** A80, e 350 (2024).
doi: <http://dx.doi.org/10.1107/S2053273324096499>
13. Pressure-induced multiple phase transitions in the magnetoelectric $\text{Co}_4\text{Nb}_2\text{O}_9$. R. Jana, A. B. Garg, B. Joseph, B. Chakraborty, **K. A. Irshad** and R. Rao, *Physical Review B* 108 (11), 115107 (2023).
doi: <http://dx.doi.org/10.1103/PhysRevB.108.115107>
14. Structural Stability and Phase Transitions in Zeolite A: An In Situ High Pressure–High Temperature Investigation. **K. A. Irshad***, N. R. Sanjay Kumar, M. Mahima Kumar, and Hrudananda Jena, **Inorg. Chem.** 61(35), 13792–13801(2022).
doi: <https://doi.org/10.1021/acs.inorgchem.2c01626>
15. Removal of Cs^+ and Sr^{2+} ions from simulated radioactive waste solutions using Zeolite-A synthesized from kaolin and their structural stability at high pressures. M. Mahima Kumar, **K. A. Irshad** and Hrudananda Jena, **Microporous and Mesoporous Materials** 312, 110773 (2021).
doi: <https://doi.org/10.1016/j.micromeso.2020.110773>
16. Structural phase transition, equation of state and phase diagram of functional rare earth sesquioxide ceramics $(\text{Eu}_{1-x}\text{La}_x)_2\text{O}_3$. **K. A. Irshad***, V. Srihari, S. Kalavathi and N. V Chandra Shekar, **Sci Rep** 10, 11829 (2020).
doi: <https://doi.org/10.1038/s41598-020-68400-9>
17. High pressure structural stability, equation of state and thermal expansion behaviour of cubic HfO_2 . **K. A. Irshad***, Velaga Srihari, D. Sanjay Kumar, K. Ananthasivan and Hrudananda Jena, **Journal of American Ceramic Society** 103, 5374– 5381 (2020).
doi: <https://doi.org/10.1111/jace.17266>
18. Anomalous Lattice Compression in the Hexagonal La_2O_3 – A high pressure X-ray diffraction, Raman spectroscopy and First principle study. **K. A. Irshad***, P. Anees, R. Rajitha, T. R. Ravindran, V. Srihari, S. Kalavathi and N. V. Chandra Shekar, **Journal of Alloys and Compounds** 822, 153657 (2020).
doi: <https://doi.org/10.1016/j.jallcom.2020.153657>
19. Micro strain assisted polymorphic phase transitions in $(\text{Eu}_{1-x}\text{La}_x)_2\text{O}_3$. **K. A. Irshad**, A. Saikumaran, V. Srihari, S. Kalavathi and N. V Chandra Shekar, **Journal of Applied Crystallography** 52, 32-39 (2019).
doi: <https://doi.org/10.1107/S1600576718016989>
20. Pressure induced structural phase transition in rare earth sesquioxide Tm_2O_3 : Experiment and *ab initio* calculations. **K. A. Irshad**, P. Anees, S. Sahoo, N. R. Sanjay Kumar, V. Srihari, S. Kalavathi and N. V. Chandra Shekar, **Journal of Applied Physics** 124 (15), 155901 (2018).
doi: <https://doi.org/10.1063/1.5049223>

21. High pressure studies on Thorium-Praseodymium mixed oxides. **K. A. Irshad**, D. Sanjay Kumar, G. Paneerselvam, K. Ananthasivan, N. V. Chandra Shekar and S. Kalavathi, **Journal of Nuclear Materials** 498 (Supplement C), 221-226 (2018).
doi: <https://doi.org/10.1016/j.jnucmat.2017.10.029>
22. A novel and simple X-ray slit for diamond anvil cell based X-ray diffraction experiments. **K. A. Irshad**, N. R. S. Kumar and N. V. C. Shekar, **Measurement Science and Technology** 28 (4), 047002 (2017).
doi: <https://doi.org/10.1088/1361-6501/aa5e25>
23. High pressure structural phase transitions in Ho: Eu₂O₃. **K. A. Irshad**, N. V. Chandra Shekar, V. Srihari, K. K. Pandey and S. Kalavathi, **Journal of Alloys and Compounds** 725, 911-915 (2017).
doi: <http://dx.doi.org/10.1016/j.jallcom.2017.07.224>
24. Anomalous lattice compressibility of hexagonal Eu₂O₃. **K. A. Irshad** and N. V. Chandra Shekar, **Materials Chemistry and Physics** 195, 88-93 (2017). doi: <http://doi.org/10.1016/j.matchemphys.2017.04.012>
25. X-ray diffraction and Raman studies on Ho: Eu₂O₃. **K. A. Irshad**, N. V. Chandra Shekar, T. R. Ravindran, V. Srihari and K. K. Pandey, **Journal of Molecular Structure** 1128, 325-329 (2017).
doi: <http://dx.doi.org/10.1016/j.molstruc.2016.08.077>

Appearance in national/ international conferences:

1. High-Pressure High-Temperature Structural Stability of Zeolite-A, **K. A. Irshad**, N. R. Sanjay Kumar, M. Mahima Kumar and Hrudananda Jena, 8th Interdisciplinary Symposium on Materials Chemistry (ISMC-2020), June 17-19 2021, Bhabha Atomic Research Centre, Mumbai, India
2. High Pressure Structural Stability and Equation of State of Cubic HfO₂, **Irshad .K. A**, Hrudananda Jena, Sanjay Kumar. D, Ananthasivan. K, Panigrahi. B. K, 64th DAE Solid State Physics Symposium, Indian Institute of Technology, Jodhpur, Rajasthan, India, 2019
3. Polymorphism in rare earth sesquioxides: dependence on pressure and cationic radii. **K. A. Irshad**, N. V. Chandra Shekar and S. Kalavathi, 24th Congress and General Assembly of the International Union of Crystallography, Hyderabad, India.
4. High pressure structural phase transition in Tm₂O₃. **K. A. Irshad**, N. V. Chandra Shekar and S. Kalavathi, 2nd International Conference on Condensed Matter and Applied Physics (2017), Bikaner Rajasthan, India
5. High Pressure Studies on Thorium-Praseodymium Mixed Oxides. **K. A. Irshad**, N. V. Chandra Shekar, G. Paneerselvam, D. S. Kumar and K. Ananthasivan, 61st DAE Solid State Physics Symposium, KIIT University, Bhubaneswar, India, 2017.
6. Investigation of pressure-concentration (P-x) phase diagram for rare earth mixed oxide ceramic system : (Eu_{1-x}Ho_x)₂O₃. **K. A. Irshad** and N. V. Chandrashekar, **MRSI, 27th AGM, 18-20 Feb. 2016**, CSIR North East Institute of Science and Technology, Jorhat, India, p.46

Conference proceedings and publications:

1. Hard X-ray Diffraction Beamlines at Elettra for Material Science: The Present and the Future. B. Joseph, G. Bais, L. Gigli, F. Alabarse, **K. A Irshad**, L. Barba, A. Cassetta, P. K. Mondal, H. Poswal and D. Sarma, **Acta Cryst.** A80, e 350 (2024).
doi: <http://dx.doi.org/10.1107/S2053273324096499>
2. High pressure equation of state of Na₆Mn(SO₄)₄ vanthoffite Pradhan M., Dutta A., **Irshad K. A.**, Joseph B., Guru Row T. N., Swain D., Pradhan G. K, **Acta Crystallographica Section A: Foundations and Advances**, Vol. A79, p. C907 (2024).
doi: <http://dx.doi.org/10.1107/S2053273323087144>

3. Pressure-driven structural and electronic phase transitions in type II multiferroic MnSb_2Se_4 Joseph A., Kumar R., Sunil J., Joseph B., **Irshad K. A.**, Sundaresan A., Narayana C. **Acta Crystallographica Section A: Foundations and Advances**, Vol. A79, p. C909, (Abstracts of the XXVI IUCr Congress, Melbourne, Australia, August 2023)
doi: <http://dx.doi.org/10.1107/S2053273323087120>
4. Theoretical and experimental investigation of different phases in as cast equiatomic CrFeMoNbV alloys. A. Saikumaran, R. Mythili, S. Saroja, **K. A. Irshad**, S. Kalavathy, and Rajesh Ganesan, **AIP Conference Proceedings** 2115, 030018 (2019). doi: <https://doi.org/10.1063/1.5112857>
5. Polymorphism in rare earth sesquioxides: dependence on pressure and cationic radii. **K. A. Irshad**, N. V. Chandra Shekar and S. Kalavathi, **Acta Crystallographica Section A** 73 (a2), C1256 (2017).
doi: <http://dx.doi.org/10.1107/S2053273317083188>

Invited Talks

1. High pressure- High temperature structural studies on Zeolite-A, International Conference on Recent Advances in High Pressure Science and Technology(ICReAcH-2022), 8-10, February 2022, Indira Gandhi Centre for Atomic Research, Kalpakkam, Tamil Nadu(WebEx Online Platform), India
2. *Diffraction In Crystals*, TEQIP-III Sponsored Five-Day Online Faculty Development Programme on "FRONTIERS IN PHYSICS RESEARCH" From 10th To 14th August 2020, Organised by the Department of Physics, Government College of Engineering, Bargur, Krishnagiri, Tamilnadu, India.
3. *Rietveld Method: A Brief Introduction to Crystal Structure Refinement Using GSAS Programme*, TEQIP-III Sponsored Five-Day Online Faculty Development Programme on "FRONTIERS IN PHYSICS RESEARCH" From 10th To 14th August 2020, Organised by the Department of Physics, Government College of Engineering, Bargur, Krishnagiri, Tamilnadu, India.

Fellowships and Awards

Awards:

1. **Homi Bhabha medal for the best thesis** in physical sciences, 2019, IGCAR, Kalpakkam

Fellowships:

1. Senior Research Fellowship, Department of Atomic Energy, India, (2015)
2. Junior Research Fellowship, Department of Atomic Energy, India, (2013)
